PROJECT DESCRIPTION

The project proposes a horizontal addition (a ground-floor bedroom with second-floor deck above) to the existing 3-story, 2-unit residential building.

Section 134 of the Planning Code requires a minimum rear yard of approximately 66 feet for the subject property. The existing structure encroaches into the required rear yard by approximately 43 feet, which, makes that portion of the structure noncomplying. The project proposes an approximately 11 foot horizontal addition to the existing, noncomplying structure located within the required rear yard; therefore, the project requires a variance.
