PROJECT DESCRIPTION

The proposal is to demolish existing non-conforming non-permitted building additions at the rear of the existing four-story structure, and to construct a staircase to provide the third-floor dwelling unit access to the rear yard. A permitted non-conforming portion of the building would remain and encroach 8 feet into the rear yard.

PER SECTION 134 OF THE PLANNING CODE, the subject property is required to maintain a rear yard equal to the average of the two adjacent buildings (50 feet 5 inches). The existing building encroaches 21 feet 8 inches into the required rear yard and the proposed replacement stairs would encroach 20 feet 6 inches into the required rear yard. Therefore, the project requires a variance from the rear yard requirement of the Planning Code.
