PROJECT DESCRIPTION

The project proposes to add three Accessory Dwelling Units at the ground floor level of an existing three-story, ten-unit residential building undergoing seismic retrofitting.

PER SECTION 140 OF THE PLANNING CODE the subject property is required to have windows of each unit face directly on an open area no less than 25 feet in every horizontal dimension, with an increase of five feet in every horizontal dimension at each subsequent floor immediately above. The dimensions of the open area may be reduced to 15 feet in width and depth for Accessory Dwelling Units. The subject property has a side yard that is 11 feet 3 inches in width; two of the proposed Accessory Dwelling Units will face onto that side yard, which is less than the minimum 15 foot by 15 foot open area required for reduced dwelling unit exposure, thereby requiring an exposure variance.
