### PROJECT DESCRIPTION

The proposal is for a lot area variance. Currently, a portion of 528 Arlington Street encroaches 3.8 feet onto the adjacent property at 532 Arlington Street. The proposal is to shift the property line between 528 and 532 Arlington Street such that each building is located entirely on their own lot.

**PER SECTION 121(e) OF THE PLANNING CODE**, the subject property is required to maintain a minimum lot area of 2,500 square feet. The existing lot is noncomplying in area at 2,250 square feet (30 feet by 75 feet). The adjacent building at 528 Arlington Street extends 3.8 feet over the lot line onto the subject property. The proposal would modify the lot lines between the properties and reduce the lot width of 532 Arlington to 25 feet. This reduces the size of the lot to 1,875 square feet, which does not meet the minimum requirements of the Planning Code and therefore requires a variance.
